Top of the league in 06/07 and back for this year's title!

Get closer to the action than ever before by mastering the skills required to play like a real professional football player in FIFA 08.

KEY FEATURES

Manual Controls - Dictate the play with new manual controls for through-passing and crossing. Control the goalkeeper in one-on-one situations to deny the striker yourself. Use the right-stick to quickly switch to the exact player you want to control when defending.

Be A Pro: Co-op Season - Take on the role of a professional footballer, create your own player and test yourself in one position for an entire season. Master positioning, improve your attributes and develop into an elite player. Co-operate with up to three friends fixed to their player on the same team, but compete with those same friends on individual challenges. All performances are tracked through detailed statistics to determine who really is a pro.

Custom Formations - Design your own unique strategy to create the perfect formation and tactics. Set each player's exact position in the formation, and assign specific attacking and defensive runs to unlock the opposition.

Online Football Clubs (PlayStation®2) - Form your own group of like-minded football fans to take on all challengers online and create a Football Club. Gain status among the online community by helping your Football Club climb the rankings. Win more points based on the importance of the match, like playing Interactive Leagues or challenging other Football Clubs to a grudge-match tournament.

Share Replays (PC, PLAYSTATION®3, Xbox 360™) - Now you can save and show off your best games or just the highlights! It is easy to capture a game or key moments and export as a video file to share with your friends and foes. Brag about match-winning plays and goals or even capture the entire ninety minutes to relive your favorite games.

Interactive Leagues (PlayStation®2, PLAYSTATION®3 , Xbox 360™) - For the first time on Next Generation consoles, earn points online for your favorite clubs as you play against rival teams over Xbox LIVE® and PLAYSTATION®3 Home.

A New Football Experience (Wii™) - Revolutionary game controls allow you to pass, shoot and perform skills such as stepovers and drag-backs, all with a flick of the wrist. Footii Party (Wii™) - Play three completely unique Party Games - Juggling, Boot It and Table Soccer - to unlock Ronaldinho and take on the champ. Have fun and watch the meter count your calories burned.

PEGI, BBFC & Technical Information Explained

This guide is designed to help those of you not familiar with videogames to choose the right one.

On the front of all videogame boxes you will find the format for that particular title. The different formats that you need to look for (illustrated here on the right) are: PlayStation®2, PLAYSTATION®3 , PSP™ (PlayStation®Portable), NINTENDO DS™, PC, Microsoft Xbox 360™ and Wii™. Certain games are also available to play on your Mobile Phone.

Each game also has a PEGI or BBFC rating to help you choose the appropriate game for the age of the person you are buying for. On each of the following pages we provide information on each game and a quick reference guide that highlights the formats the game is available on and the PEGI or BBFC rating applicable.

ABOUT PEGI RATINGS

The Pan European Games Information (PEGI) age rating system is a new age rating system for interactive games. Designed to ensure that minors are not exposed to games that are unsuitable for their particular age group, the system is supported by the major console manufacturers, as well as by publishers and developers of interactive games. The age rating system has been developed by the Interactive Software Federation of Europe (ISFE) and has the enthusiastic support of the European Commission, who considers the new system to be a model of European harmonisation in the field of the protection of children.

The age rating system comprises two separate but complementary elements. The first is an age rating, similar to some existing rating systems. The second element of the new system is a number of game descriptors. These are icons, displayed on the back of the game box, that describe the type of content to be found in the game. Depending on the type of game, there may be up to six such descriptors. The intensity of the content is appropriate to the age rating of the game.The combination of age rating and game descriptors allows parents and those purchasing games for children to ensure that the game they purchase is appropriate to the age of the intended player. For further information visit the PEGI URL at www.pegi.info. Some games are also rated by the BBFC. For more details please visit www.bbfc.co.uk.
